EDUCATION

The University of the South **Sewanee, TN**

Bachelor of Science in Mathematics & Economics; Minor in Philosophy *Aug 2020 – May 2024*

- **Coursework:** Linear Algebra • Multidimensional Calculus • Topology • Real & Functional Analysis • Probability & Statistics I–II • Econometrics • Time Series Analysis & Forecasting • Corporate Finance • Money & Banking • Advanced Microeconomic Theory • Macroeconomic Growth Theory • Sports Analytics
- **Extracurriculars:** President Math Club • President Chess Club • Founder Sewanee Martial Arts Club • Member Green's View Investment Club • Residential Assistant • Phi Gamma Delta Social Affiliate • Math & CS Tutor • Student Postal Assistant • Barista at Sterling's Cafe
- Dean's List (All Semesters) • Order of the Gown (Academic Honor Society) • Research Grant Recipient (Macro-Economic Modeling) • International Honors Scholar (Full-Ride Merit Scholarship)

PROFESSIONAL EXPERIENCE

Adapture **Atlanta, GA**

Project & Service Delivery Manager | Cloudflare *May 2024 – May 2026*

- Led a $15M+ portfolio of 50+ enterprise IT initiatives across Professional and Managed Services spanning cloud infrastructure, cybersecurity, networking, application modernization, and systems integration, owning delivery from initiation through Agile execution, production deployment, and operational transition.
- Drove key workstreams within the company's largest global migration program, leading the migration of 250+ web properties across 50+ IKEA and INGKA Group subsidiaries from Akamai to Cloudflare while coordinating globally distributed teams, complex dependencies, production deployments, and operational handoffs.
- Directed delivery across complex Cloudflare enterprise engagements, including BYOIP and Spectrum implementations, large-scale onboarding of 500+ domains, Workers and CI/CD modernization, application security initiatives, and high-traffic production readiness, coordinating engineering, customer, and partner teams through implementation and go-live.
- Partnered with Account Executives, Solutions Architects, engineers, and client stakeholders to translate SOWs and commercial commitments into executable delivery plans, managing scope, budget, forecasts, resources, schedules, dependencies, change control, and customer expectations.
- Managed concurrent enterprise projects through Agile, Waterfall, and hybrid delivery, owning integrated plans, milestones, RAID, dependencies, change control, production readiness, executive status reporting, and cross-functional issue resolution.
- Led post-implementation Managed Services delivery and customer governance for 12+ enterprise accounts, coordinating Cloud, Network, Cybersecurity, and Operations teams while owning service reviews, SLA/KPI performance, escalations, risks, executive reporting, and strategic priorities.

Initiant **Edison, NJ**

Cloudflare Solutions Engineer *November 2023 – May 2024*

- Supported Cloudflare application security deployments across WAF managed/custom rules, Rate Limiting, Bot Management, DDoS protection, Rulesets, and SSL/TLS, assisting with configuration, testing, troubleshooting, and production changes.
- Worked across Cloudflare DNS and network services, supporting DNS, caching, redirects, origin connectivity, traffic routing, and Cloudflare Tunnels while troubleshooting DNS, HTTP, TLS, and application connectivity issues.

- Worked with Cloudflare Workers and REST APIs, supporting edge logic, configuration management, troubleshooting, and automation across enterprise customer environments.
- Supported Cloudflare Zero Trust implementations across Access, Gateway, WARP, ZTNA policies, identity integrations, and private application connectivity, assisting with configuration, testing, and troubleshooting.
- Worked across Cloudflare dashboard and Terraform-based configuration workflows, supporting infrastructure-as-code, configuration changes, version-controlled deployments, and repeatable management of customer environments.

DataDrivenPartners **Little Rock, AR**

Data Science Intern *February – November 2023*

- Engineered end-to-end data pipelines and ML-driven automation workflows using Python, SQL, automated data ingestion, transformation pipelines, and programmatic validation, reducing manual data review by 80%+ across real estate datasets.
- Developed machine learning and statistical models for clustering, anomaly detection, and market segmentation, transforming property and financial data into market intelligence for financial institution clients.
- Built automated ETL and data-quality frameworks incorporating feature engineering, validation rules, and exception handling, improving data reliability and powering downstream analytics, Power BI dashboards, and executive reporting.

DataLab | BetterFi **Sewanee, TN**

Data Science Fellow *June – August 2022*

- Engineered an end-to-end credit risk modeling and decision-support tool, applying logistic regression and decision trees with 10-fold cross-validation to predict lending outcomes and generate borrower risk scores from financial and credit data.
- Built automated data preprocessing, feature engineering, and validation pipelines in R using dplyr, tidyr, caret, and recipes to clean, encode, normalize, and transform raw borrower data into model-ready features for predictive credit analysis.
- Developed interactive risk analytics and geospatial visualizations using R, ggplot2, and Leaflet to identify lending patterns and communicate model outputs, supporting a CDFI combating predatory lending in rural Tennessee.

CERTIFICATIONS, SKILLS, INTERESTS

- **Certifications:** Cloudflare Accredited Sales Engineer (ASE) • Cloudflare Accredited Configuration Engineer (ACE) • Cloudflare ZT 301 • Google Project Management Professional • AWS Solutions Architect Associate (Expected 12/2026)
- **Project & Service Delivery:** Agile • Waterfall • Hybrid • Scrum • Project Planning • RAID Management • Change Control • Budget & Resource Management • SOW/SLA Management • Stakeholder & Vendor Management • ITSM
- **Tools:** Jira • Confluence • Smartsheet • ServiceNow • Notion • SalesForce • Asana • Zoho • Microsoft 365
- **Cloud & Technical:** Cloudflare • AWS • Azure • WAF • DNS • CDN • DDoS • ZTNA • SASE • IAM • SSL/TLS • Edge Computing • REST APIs • Terraform • CloudFormation • CI/CD • Python • JavaScript • R • Stata • SQL • Power BI
- **Interests:** Road-Biking (150 miles across Tennessee), Brazilian Jiu-Jitsu (3+ years), Hiking, Data Science for Social Good
