## EDUCATION

---

### The University of the South

*Bachelor of Science in Mathematics & Economics; Minor in Philosophy*

**Sewanee, TN**

*Aug 2020 – May 2024*

- Dean's List (All Semesters), Order of the Gown (Academic Honor Society), Research Grant Recipient (Macro-Economic Modeling), International Honors Scholar (Full-Ride Merit Scholarship)
- Extracurriculars: President Math Club, President Chess Club, Green's View Capital Student Investment Club, Residential Assistant, Student Postal Officer, Phi Gamma Delta Social Affiliate, Math & CS Tutor

## PROFESSIONAL EXPERIENCE

---

### Adapture

*Project Manager | Service Delivery Manager*

**Atlanta, GA**

*May 2024 – May 2026*

- Led a \$15M+ portfolio of 50+ enterprise IT initiatives across Professional and Managed Services spanning cloud infrastructure, cybersecurity, networking, application modernization, and systems integration, owning scope, budget, schedule, and delivery from planning through implementation, production deployment, and operational transition.
- Drove key workstreams within the company's largest global migration program, leading the migration of 250+ web properties across 50+ IKEA and INGKA Group subsidiaries from Akamai to Cloudflare while coordinating global teams, technical requirements, dependencies, testing, production deployments, and operational handovers.
- Partnered with sales, architects, engineers, and client stakeholders to translate business and technical requirements, SOWs, and commercial commitments into executable delivery plans, managing scope, SLAs, budgets, forecasts, resources, schedules, dependencies, and change control.
- Managed concurrent projects using Agile, Waterfall, and hybrid methodologies, developing project plans, schedules, backlogs, RAID logs, and deliverables; facilitating sprint ceremonies and status reviews; and driving risk mitigation, issue escalation, change control, testing, and production readiness.
- Led Managed Services delivery and governance for 12+ enterprise accounts, coordinating Cloud, Network, Cybersecurity, and Operations teams while analyzing service performance, KPIs, SLA adherence, risks, and operational processes to drive issue resolution and continuous improvement through client and executive reporting.

### DataDrivenPartners

*Data Science Intern*

**Little Rock, AR**

*February – November 2023*

- Engineered end-to-end data pipelines and ML-driven automation workflows using Python, SQL, automated data ingestion, transformation pipelines, and programmatic validation, reducing manual data review by 80%+ across real estate datasets.
- Developed machine learning and statistical models for clustering, anomaly detection, and market segmentation, transforming property and financial data into market intelligence for financial institution clients.
- Built automated ETL and data-quality frameworks incorporating feature engineering, validation rules, and exception handling, improving data reliability and powering downstream analytics, Power BI dashboards, and executive reporting.

### DataLab | BetterFi

*Data Science Fellow*

**Sewanee, TN**

*June – August 2022*

- Engineered an end-to-end credit risk modeling and decision-support tool, applying logistic regression and decision trees with 10-fold cross-validation to predict lending outcomes and generate borrower risk scores from financial and credit data.
- Built automated data preprocessing, feature engineering, and validation pipelines in R using dplyr, tidyr, caret, and recipes to clean, encode, normalize, and transform raw borrower data into model-ready features for predictive credit analysis.
- Developed interactive risk analytics and geospatial visualizations using R, ggplot2, and Leaflet to identify lending patterns and communicate model outputs, supporting a CDFI combating predatory lending in rural Tennessee.

## CERTIFICATIONS, SKILLS, INTERESTS

---

- **Certifications:** Google Project Management Professional • Cloudflare Accredited Sales (ASE) & Configuration (ACE)
- **Project Management:** Agile • Waterfall • Project Planning • Requirements Gathering • Business Analysis • Process Mapping • SDLC • Testing & UAT • Risk & Change Management • Budget & Resource Management • SOW/SLA Management
- **Tools & Technical:** Jira • Smartsheet • ServiceNow • Microsoft 365 • Power BI • SQL • ITSM • AWS • Azure • Cloudflare • APIs • Systems Integration • CI/CD • REST APIs • JSON • DNS • CDN • WAF • Infrastructure as Code (Terraform)
- **Interests:** Road-Biking (150 miles across Tennessee), Brazilian Jiu-Jitsu (3+ years), Hiking, Data Science for Social Good
