EDUCATION

The University of the South

Bachelor of Science in Mathematics & Economics; Minor in Philosophy

Sewanee, TN

Aug 2020 – May 2024

- GPA: 3.74 | Dean's List (All Semesters), Order of the Gown (Academic Honor Society), Research Grant Recipient (Macro-Economic Modeling), International Honors Scholar (Full-Ride Merit Scholarship)
- Extracurriculars: President Math Club, President Chess Club, Founder Mixed Martial Arts Club, Residential Assistant, Phi Gamma Delta Social Affiliate, Math & CS Tutor, Student Postal Assistant, Barista at Sterling's Cafe

PROFESSIONAL EXPERIENCE

Adapture

Service Delivery Manager

Atlanta, GA

July 2025 – April 2026

- Primary point of contact for Cloudflare Managed Services, managing service delivery, operations, and client relationships for 12 enterprise organizations, including Harley-Davidson, Carter's, RaceTrac, SharkNinja, GPC, and DirecTV.
- Organized cloud engineering, networking, security, and SOC teams to communicate complex technical requirements between executive stakeholders and engineering teams, while managing client communications, escalations, and SLAs.
- Led weekly reviews with technical teams and monthly business reviews with executive leadership, reporting on KPIs, service health, security events, operational risks, project progress, and strategic initiatives to support decision-making.
- Governed ITSM processes across incidents, service requests, and change management using ServiceNow, Smartsheet, and Jira, ensuring controlled production changes and operational stability across multiple enterprise environments.
- Coordinated enterprise cloud modernization initiatives spanning Zero Trust, SASE, API integrations, Infrastructure as Code, CI/CD workflows, and cross-platform integrations, enabling reliable production deployments and service delivery.

Technical Project Manager

May 2024 – July 2025

- Owned end-to-end delivery of enterprise Cloudflare projects, leading global cross-functional teams throughout planning, execution, and production rollout across cloud security, networking, and infrastructure modernization initiatives.
- Directed the migration of 250+ properties across 50+ IKEA and INGKA Group subsidiaries from Akamai to Cloudflare, managing key dependencies, DNS cutovers, and operational handovers across globally distributed teams.
- Established delivery governance throughout the project lifecycle by managing execution roadmaps, RAID logs, milestone tracking, and executive reporting to proactively align project scope, timelines, risks, and key delivery decisions.
- Directed Agile project execution through sprint planning, backlog prioritization, dependency management, change governance, and production readiness, driving predictable delivery and successful rollouts across multiple workstreams.

DataDrivenPartners

Data Science Intern

Little Rock, AR

February – November 2023

- Built Power BI dashboards visualizing large real estate datasets and delivering market intelligence for financial institutions.
- Cleaned, transformed, and analyzed datasets using SQL, R, and OpenRefine, improving accuracy and platform reliability.
- Developed ML automation using Python and K-Means clustering, reducing manual processing in workflows by over 80%.

DataLab | BetterFi

Data Science Fellow

Sewanee, TN

June – August 2023

- Developed decision tree and logistic regression models using 10-fold cross-validation to support a CDFI's lending decisions.
- Designed data quality standards, guidelines, and validation workflows using R and dplyr to improve analytical consistency.
- Built interactive dashboards and geospatial visualizations using R, ggplot2, and Leaflet for exploratory analysis.
