PROFESSIONAL SUMMARY

Project Management Professional specializing in Cloudflare Professional Services and Managed Services, with a proven track record delivering enterprise cloud migrations, Zero Trust deployments, and application security and performance optimization projects. Experienced in managing concurrent engagements throughout the project lifecycle, collaborating with leadership to coordinate technical resources, and serving as the primary customer liaison to align stakeholders and drive successful delivery.

PROFESSIONAL EXPERIENCE

Adapture | Initiant **Atlanta, GA**

Project & Service Delivery Manager | Cloudflare *September 2025 – May 2026*

- Led Cloudflare MS delivery for 15+ enterprise accounts, overseeing service performance and customer communications.
- Managed technical resource allocation across enterprise accounts, balancing workloads, service priorities, and utilization.
- Led monthly and quarterly Executive Business Reviews demonstrating business value and aligning with client objectives.
- Partnered with Account Executives and Solutions Architects to drive retention and identify expansion opportunities.
- Developed dashboards integrating ITSM and Cloudflare API data to track service performance and customer health.
- Leveraged generative AI and automation to streamline reporting, analyze trends, and surface actionable customer insights.
- Led cross-functional service governance, managing SLAs, KPIs, escalations, RCAs, and continuous service improvement.

Project Manager | Cloudflare *May 2024 – September 2025*

- Led 50+ enterprise Cloudflare engagements, translating SOWs into delivery plans and overseeing end-to-end execution.
- Served as primary customer POC, leading status meetings, stakeholder updates, and reporting across concurrent projects.
- Managed project scope, budgets, timelines, risks, and dependencies using Agile, Waterfall, and hybrid methodologies.
- Coordinated resource allocation and capacity forecasting, aligning team skills and availability to optimize utilization.
- Maintained accurate project tracking across PM platforms, leveraging AI to streamline meeting notes and documentation.
- Led high-volume Akamai-to-Cloudflare migrations, managing global cross-functional teams while reporting to leadership.
- Managed end-to-end application security and performance deployments spanning WAF, CDN, DNS, and Bot Management.
- Coordinated Zero Trust implementations across Cloudflare Access, Gateway, Tunnel, and identity provider integrations.
- Led enterprise networking projects involving Cloudflare WAN, Magic Transit, BYOIP, Spectrum, and Load Balancing.

Solutions Engineer | Cloudflare *January 2024 – May 2024*

- Configured, deployed, and troubleshot Cloudflare WAF, CDN, DNS, and SSL/TLS services for enterprise clients.
- Optimized WAF rules, Rate Limiting, and Bot Management to strengthen application security and mitigate threats.
- Automated Cloudflare deployments using Terraform, Python, and REST APIs to improve consistency and efficiency.

Data Driven Partners **Little Rock, AR**

Data Science & Machine Learning Intern *February – November 2023*

- Engineered Python/SQL data pipelines and ML automation, reducing manual processes by 80%+ across real estate datasets.
- Developed Power BI dashboards and analytics reports, delivering actionable market intelligence to financial institutions.
- Built ML models for clustering and anomaly detection with automated ETL and data-quality pipelines improving reliability.

EDUCATION

The University of the South **Sewanee, TN**

Bachelor of Science in Mathematics & Economics; Minor in Philosophy *Aug 2020 – May 2024*

- Dean's List (All Semesters) • Order of the Gown (Academic Honor Society) • Research Grant Recipient (Macroeconomic Modeling) • International Honors Scholar (Full-Ride Merit Scholarship) • Math & CS Tutor • President Mathematics Club
